DETAILED ACTION

Response to Amendment

The amendment filed on September 25, 2006, has been entered and acknowledged by the Examiner.

Claims 1-10 are pending in the instant application.

Allowable Subject Matter

Claims 1-10 are allowed.

Regarding independent claim 1, the references of the Prior Art of record fail to teach or suggest the combination of the limitations as set forth in claim 1, and specifically comprising the limitation wherein a pair of thermal stress generation members, base end sides of which are supported by the support structure, and tip end sides of which are connected to the side tube portions of the light emission tube.

Regarding claims 2-10, claims 2-10 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.
